

LEHIGH
safety shoes

WOMEN'S

If shoe size is unknown and cannot be read in present shoe, use this guide.

PLACE INSIDE OF RIGHT FOOT EVEN WITH THIS SIDE OF CHART.

FOR ACCURATE MEASURE,

sit to take weight off of foot. Then...

1. Place inside of right foot to left edge of chart.
2. Place heel of right foot to bottom edge of chart.
3. Read chart from directly above foot
4. **LENGTH** is taken from end of big toe. If tip is in shaded area, order half size.
5. **WIDTH** is taken at widest part of foot.

HEEL OF RIGHT FOOT TO EDGE OF CHART.

The Boot Sizer is provided to be a guide to fitting your boots or shoes. For best results, wear socks that are appropriate for intended footwear use.
